

**AMENDMENT**

Kindly amend the application, without prejudice, without admission, without surrender of subject matter, and without any intention of creating any estoppel as to equivalents.

**In the drawings:**

Please replace the drawing sheets containing FIG. 1 with the enclosed drawing sheets titled "Replacement Sheet."

### **REMARKS**

The Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures required that the sequence of Figure 1 be presented, clearly identified with a proper sequence identifier, and included in the Sequence Listing.

In response, Applicants herein submit Replacement Sheets for Figure 1, which presents and identifies SEQ ID NO: 47. Applicants assert that Figure 1 was submitted on the original filing date of October 11, 2005, but may have been regarded by the Examiner as a sequence listing. Applicants encourage the Examiner to review the sequence listing submitted on the filing date, and to note that "Figure 1" is recited on the upper left corner of the first page. Hence, Figure 1 was submitted with the original filing of the application.

Applicants respectfully request acceptance of the Replacement Sheets for Figure 1, which properly identifies the sequence listing of Figure 1 as SEQ ID NO: 47. It is respectfully asserted that the sequence disclosure contained in the application now fully complies with the requirements set forth in 37 C.F.R. § 1.821 to § 1.825.

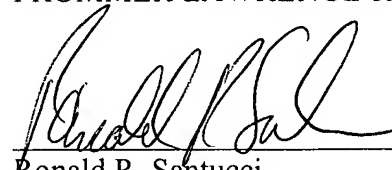

### **CONCLUSION**

In view of the amendments, remarks and enclosures herein, it is respectfully submitted that the application now complies with all requirements set forth in the Notice, including the requirements for computer readable disclosure of the biological sequences under 37 C.F.R. §§ 1.821-1.825. Reconsideration and withdrawal of the Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures is earnestly solicited.

Respectfully submitted,
